1. There is no further significant evidence available at this time on the origin of hostilities. Cairo radio is claiming that the first captured Israeli pilot said, when interrogated, that he and his unit received orders to attack Egypt this morning. The report concludes: "It appears fully that the Israeli enemy was the one who started the armed attack." A televised recording of this "evidence" is being sent to the UN Security Council. Cairo radio has claimed that seven more "enemy airmen" have been captured in the Canal Zone.

US F-4D and F-4C

aircraft at Wheelus have been ordered withdrawn to their home base, but the F-100 planes are being held temporarily. US and British embassies in Tunisia have also been sacked, and the British Consulate in Basra, Iraq has been attacked.

SOVIET BLOC

9. The US Embassy in Sofia, Bulgaria has been attacked by about 50 Arab students and windows were broken.

10. No official Soviet statement on the outbreak of hostilities has been made public. Publicly, TASS has given only a few details on the fighting, blaming Israel for its beginning. Moscow Radio is broadcasting attacks on the Israelis, with the usual accusations regarding US backing for the "aggression."
